Career Objective

Innovative and results-driven Software Developer with strong capabilities in cross-platform mobile application development (Flutter/Dart) and robust web backends/frontends (Laravel, NestJS, Next.js, React.js, Node.js). Seeking to utilize my full-stack engineering skills to build scalable products and contribute to company growth.

Skills

Mobile App Development
Flutter, Dart, Android & iOS, BLoC Pattern, Provider, Firebase, REST API Integration

Backend Development
Laravel (PHP), NestJS, Node.js, Express.js, RESTful APIs, Microservices, WebSockets, JWT Auth

Frontend Development
Next.js, React.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Bootstrap, HTML5 & CSS3

Databases & Caching
MySQL, PostgreSQL, MongoDB, Redis

Tools & DevOps
Git, GitHub, Docker, Postman, Linux, CI/CD, Payment Gateways (Stripe, Razorpay)

AI & Productivity Tools
ChatGPT, GitHub Copilot, Cursor AI, Blackbox

Personal Details

Languages:	Hindi, English
Location:	Seoni (M.P), India
Availability:	Immediate

Education

BCA (Bachelor of Computer Applications)
MCU Bhopal
Appearing / Final Year

12th Higher Secondary
M.P Board (2023)
78%

10th High School
M.P Board (2021)
78%

Work Experience

Software Developer 2023 – Present
Tech Company (Full-time)

- Engineered high-performance web and mobile application modules using **Laravel, NestJS, React.js, and Flutter**.
- Designed and scaled RESTful APIs serving 25k+ monthly requests with JWT auth and Redis caching.
- Collaborated in Agile sprints to deliver production features with 99.8% crash-free mobile sessions.

Freelance Full Stack Developer 2022 – Present
Independent Consultant (4+ Projects Delivered)

- Successfully delivered **4+ commercial client projects** across Fintech, E-Commerce, Trading, and SaaS.
- Integrated secure payment gateways (Stripe, Razorpay) with automated webhooks and invoicing.

Project

1. Cross-Platform Fintech & Digital Payments Mobile Application
Tech: Flutter (Dart), Firebase, REST API, SQLite, Razorpay

- Engineered a cross-platform mobile wallet with peer-to-peer money transfers, QR payments, BLoC state management, and biometric authentication (Fingerprint/FaceID).

2. Real-Time Financial Trading & Exchange Web Platform
Tech: Laravel (PHP), Next.js, Redis, WebSockets, PostgreSQL

- Developed an asset trading web portal with live candlestick market charts, Redis queue workers for asynchronous order matching, and real-time WebSocket ticker updates.

3. Multi-Vendor E-Commerce & Marketplace Application
Tech: NestJS, Next.js, React.js, TypeScript, PostgreSQL, Stripe

- Built a multi-vendor platform with headless SSR architecture for optimal SEO, vendor analytics dashboard, discount engine, and Stripe checkout integration.

4. Real-Time Team Collaboration & Workspace Tool
Tech: Node.js, Express.js, React.js, Socket.io, MongoDB

- Built a real-time Kanban project collaboration tool with live member presence, instant board synchronization via WebSockets, and role-based permissions.
